

Meeting Announcement and Call for Papers

2002 RELAP5 INTERNATIONAL USERS SEMINAR

Park City Marriott

Park City, Utah, USA – September 4 - 6, 2002

The Idaho National Engineering & Environmental Laboratory (INEEL) will host the 2002 RELAP5 International Users Seminar at the Park City Marriott Hotel, Park City, Utah, USA, September 4-6, 2002.

The meeting will serve a two-fold purpose. First, it will provide a forum for RELAP5 users from around the globe to share their experiences in performing analyses using the code. Second, a portion of the seminar will be set aside for an executive meeting of the representatives of the International RELAP5 Users Group (IRUG). These members will participate in setting priorities for future enhancements to RELAP5-3D®.

Membership in IRUG is not a condition of attendance to the meeting, and papers are encouraged based on the application of any version of RELAP5, including SCDAP/RELAP5 and ATHENA.

Meeting participants will see and hear about new features in RELAP5-3D® and the companion graphical user interface (RGUI).

The following schedule has been established for meeting participants:

May 31 – Abstracts and registration forms submitted to INEEL

July 7 – Papers submitted to INEEL

July 27 – Registration fee submitted to INEEL

August 15 – Preliminary agenda distributed

The final agenda will be distributed at the meeting.

Abstracts should be 500 words or less and can be e-mailed to gwi@inel.gov, faxed to (208) 526-0528, or mailed to the following address:

Gary Johnsen
Idaho National Engineering & Environmental Laboratory
P.O. Box 1625
Idaho Falls, ID 83415-3880
USA

For those who wish to participate as presenters at the seminar, we suggest the following topic areas (all papers will be considered):

- LOCA Simulations
- Non-LOCA Simulations
- DOE Applications
- Advanced Reactor Applications
- Application to Russian-designed Reactors
- Plant Application and Problem Analysis
- Non-nuclear Applications
- Validation/Assessment
- Accident Management
- Simulator Applications
- Code Models and Modeling Issues
- ATHENA Applications
- SCDAP/RELAP5 Applications
- RELAP5/CFD Code Applications

The registration fee for the seminar has been set at US\$175. Make registration fee payable to **Bechtel BWXT Idaho, LLC** and mail to Gary Johnsen at the above address by **July 27th**.

A block of rooms has been set aside for meeting participants at the Marriott at the rate of US\$79 per night. The hotel will hold these rooms until **August 3rd**. Please mention the RELAP5 Seminar when making your reservation.

NOTE: Information on Park City follows.

Park City, Utah

Park City is located in the heart of the Wasatch Mountains, part of the Rocky Mountain Range. The town is 36 miles east of Salt Lake City International Airport via a six-lane interstate highway (I-80). Park City proper only measures two miles from end to end. Within Park City, altitudes begin at 6,720 ft. (approx. 2,038 meters) and soar to 10,000 ft. (approx. 3,033 meters) in the surrounding Wasatch Mountains. Approximately 6,900 people reside in Park City year-round.

Park City was incorporated as a city in 1884. Twenty-three millionaires made their fortunes in Park City from the mining industry. George Hearst, father of William Randolph Hearst, was one of the lucky ones. Today, Park City is a unique blend of the old and the new. Sixty-four of Park City's buildings are listed on the National Register of Historic Places, most of which are located on the town's Main Street.

Despite its diminutive size, Park City boasts 106 restaurants with 32 offering al fresco dining, all with a world of international cuisine and an eclectic mix of atmosphere, including Mexican, Thai, Japanese, Chinese, Italian, American and more.

Getting around Park City is easy. The city operates a free citywide bus service throughout the year. Hours of operation are 8 a.m. to 10:30 p.m., daily. Service runs every 20 minutes in the city. A trolley operates on historic Main Street from 1 p.m. to 5 p.m., daily.

SUMMER ACTIVITIES

Park City offers a multitude of real life adventures for both Indiana Jones thrill-seekers and those who prefer sampling life in more contemplative fashion. Some suggestions for breaking out of the old routine:

Park City and hot air ballooning just go together. It's a rare morning, summer or winter, that you won't see the colorful fabric of a hot air balloon hovering over our mountain landscapes. A number of hot air balloon companies in town offer flights of varying length, including complimentary champagne. What a way

to start the day - with a bit of bubbly and a bird's eye view of the world!

Several local stables offer horseback riding tours for equestrians of all abilities. Meander through stands of aspens or gallop your steed through an open field.

Park City Mountain Resort offers the thrill of the Alpine Slide (and a beautiful chairlift ride over alpine terrain), and the Little Miner's Park for the youngsters. Try the bungee trampoline and practice your somersaults.

Get an ego-boost by golfing at 7,000 feet. When players tee it up at this altitude, they'll notice the ball soaring further than ever before. Because the air is thinner at high altitudes, there is less drag to bring the ball to earth, so golfers can leave their long drivers at home! Park City's four nearby public and two private courses are among the best in the state - and certainly the most scenic.

Try your luck casting for rainbow trout in one of our crystalline rivers or streams. Fly fishing opportunities are abundant in the area, and several local sporting good shops offer equipment rental, lessons and guided trips with local experts who know the area well. If you're lucky, some may even show you their secret fishing spots!
